Proven track record of reducing operational costs by 15% and improving reporting efficiency by 30% through Python automation and Power BI dashboards. Expertise in SQL, ETL processes, machine learning models, and cross-functional collaboration to deliver actionable business insights for C-level executives.

TECHNICAL SKILLS

Programming Languages: Python (Pandas, NumPy, Scikit-learn), SQL (MySQL), VBA

Data Visualization: Power BI, Tableau, Microsoft Excel (Advanced Pivot Tables, Dashboards)

Databases & ETL: MySQL, Microsoft Dynamics NAV, ETL Pipeline Design & Implementation

Machine Learning: Linear Regression, Logistic Regression, Predictive Modeling

Tools & Platforms: Google Sheets API, Jupyter Notebook, Git, Microsoft Access

Core Competencies: Business Intelligence, Statistical Analysis, Data Modeling, Process Automation, KPI Development

PROFESSIONAL EXPERIENCE

Business Analyst / Data Analyst

May 2022 – Present

Wastelink (SS Wastelink Sustainability Service Pvt Ltd)

Delhi, India

- Designed and deployed interactive Power BI dashboards for C-suite executives, enabling real-time strategic decision-making across daily, weekly, monthly, quarterly, and yearly business cycles
- Automated data workflows using Python and VBA, reducing manual reporting effort by 30% and accelerating report generation timelines
- Engineered ETL pipelines to integrate data from multiple sources including CRM, ERP, and Google Sheets, ensuring 99% data accuracy and streamlined reporting processes
- Conducted advanced SQL queries on large-scale datasets for efficient data extraction, transformation, and analysis to support logistics optimization initiatives
- Performed cost-benefit analysis using Excel and Power BI, identifying logistics inefficiencies and achieving 15% improvement in operational efficiency
- Collaborated with cross-functional teams to define, track, and visualize KPIs, improving organizational visibility and alignment with business objectives
- Integrated Google Sheets API with Python for real-time data synchronization, ensuring stakeholders received up-to-date information automatically
- Led training programs on Power BI and advanced Excel techniques for team members, elevating organizational data literacy and reporting standards
- Conducted statistical modeling and trend analysis using Python to forecast demand patterns and uncover actionable business insights
- Implemented quality audit processes for data inputs/outputs, minimizing errors and ensuring compliance with company standards

MIS Executive

December 2020 – May 2022

Veeba

Delhi, India

- Generated accurate invoices and logistics documentation including E-way bills, ensuring compliance and facilitating smooth supply chain operations
- Managed inventory in a fast-paced food industry environment through physical audits and data analysis, maintaining precise stock levels and minimizing discrepancies
- Developed comprehensive reports by integrating data from Google Sheets, CRM systems, and Microsoft Dynamics NAV ERP platform
- Leveraged product knowledge and data analysis to enhance operational efficiency and support rapid adaptation to new product lines

MIS Executive / Operations Executive

June 2018 – December 2020

Tata Croma (Infiniti Retail Limited)

Delhi, India

- Managed end-to-end dispatch operations including invoice verification, delivery tracking, and RTO processes to ensure timely order fulfillment

- Conducted daily physical inventory cycle counts for high-value and fast-moving items, maintaining inventory accuracy above 98%
- Coordinated warehouse operations including bar-coding, GRN generation, putaway processes, and inter-location stock movements
- Prepared Gate Passes and tracked closures, streamlining warehouse logistics and improving operational workflow efficiency

EDUCATION

Bir Tikendrajit University
Bachelor of Business Administration (BBA)

Manipur, India
July 2021 – August 2024

KEY ACHIEVEMENTS

- Reduced logistics costs through optimization of transportation methods, delivering measurable cost savings for the organization
- Recognized with company sports award for exceptional contributions to data management and analytics initiatives
- Currently enrolled in Master in Data Science (Data Analyst) program under top-tier mentorship
- Achieved zonal-level recognition in yoga (2nd and 3rd positions) and music competitions, demonstrating discipline and dedication
